Monday, November 7, 2016 9 am – 4:30 pm

Mohonk Mountain House Parlor

A Mohonk Consultations Conference

Co-sponsored by Kosmos Journal, Lifebridge Foundation and United Nations Association - Mid Hudson Valley Chapter

The Conference will explore:

- How can we create a just and sustainable society that is ethically and ecologically sound?
- How can we live and work together to build safe and nonviolent communities?

Join us to continue an historical tradition dating back to the annual Lake Mohonk Conferences on International Arbitration, held at the Mohonk Mountain House between 1895 and 1916.

Keynote Speaker: Dot Maver, PhD, educator and peace builder, was Project Director with Kosmos Associates, a Founding Trustee of the National Peace Academy USA, and a founder and board member of the Global Alliance for Ministries and Infrastructures of Peace. She said, "At this timely Peace Conference you will learn about Mohonk's rich peace history and how a Culture of Peace is emerging all over the world."

Panelists: **Iris Spellings** – Global Movement for a Culture of Peace; **Ş. İlğü Özle** – Director, SUNY Global Engagement Program (NYC), Associate Professor, Political Science and International Relations, SUNY New Paltz; **Victoria Christgau** – Executive Director, Connecticut Center for Non Violence; **Rebecca Burdett** -- Education / Mindfulness; Fran Tarr – Breaking Walls (Youth social transformation/ leadership)
